

## PreparationProducts

# ROUND SAMPL PUNCH MANUAL

The robust round sample punch is mounted on a heavy, bonded plywood base. The round blade is forced through the die with a hand lever and the sample is expelled downwards. An acrylic glass safety guard surrounds the upper blade.

## MODELS

- Punching size 100 cm<sup>2</sup> for tissue
- Punching size 100 cm<sup>2</sup> for paper and board
- Punching size 40 cm<sup>2</sup> for color backing with a special collecting tray for punching color samples for the opacity measurement of the automated color- and brightness tester without touching them
